Although we have a lot of data on his weaknesses, we are still far from successfully assassinating Koro Sensei...

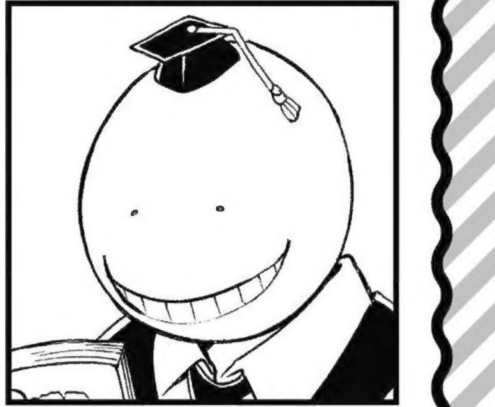
Story Thus Far

MAKE THE MOST OF YOUR KNOWLEDGE, INGENUITY AND HARD WORK.
I EXPECT TO SEE YOU EXECUTE THE BEST ASSASSINATION ATTEMPT YOU ARE CAPABLE OF.
THIS IS MY IDEA OF THE MOST FUN EVER.

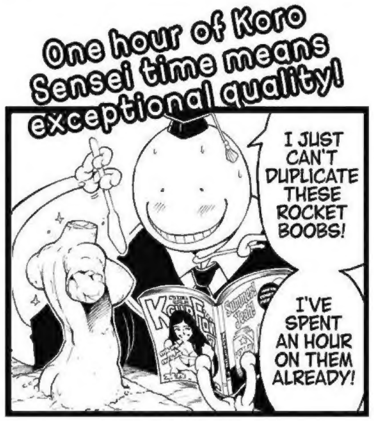
Kunugigaoka Junior High, Class 3-E is led by a monster who has disintegrated the moon and is planning to do the same to the Earth next March.

Even the armies of the world with the latest technology can't kill the super creature Koro Sensei and collect the 30 billion yen (300 million dollar) bounty for a group assassination! So it comes down to his Kunugigaoka Junior High students in 3-E, the so-called "End Class," whom he has promised not to harm. Thanks to Koro Sensei's dedication, his charges are turning into fine students. Likewise, the 3-E students' athleticism and mental concentration are rapidly improving as the Ministry of Defense's Mr. Karasuma molds them into a professional team of assassins. Will the misfit students of 3-E manage to assassinate their target before graduation...?!

Koro Sensei

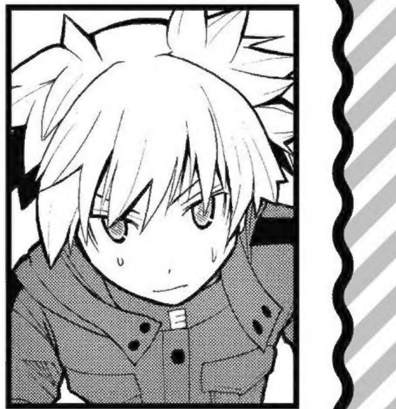


A mysterious, man-made, octopus-like creature whose name is a play on the words "koro senai," which means "can't kill." He is capable of flying at Mach 20 and his versatile tentacles protect him from attacks and aid him in everyday activities. Nobody knows who created him or why he wants to teach Class 3-E, but he has proven to be an extremely capable instructor.



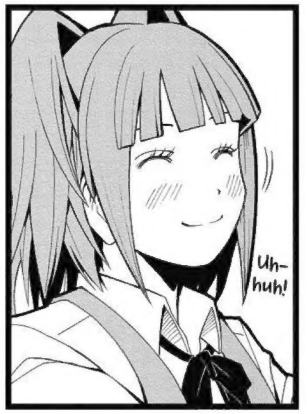
One hour of Koro Sensei time means exceptional quality!
I JUST CAN'T DUPLICATE THESE ROCKET BOOBS!
I'VE SPENT AN HOUR ON THEM ALREADY!

Nagisa Shiota



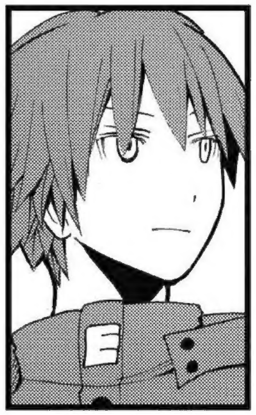
Class E student. Skilled at information gathering, he has been taking notes on Koro Sensei's weaknesses. He has a hidden talent for assassinations and even the assassin broker Lovro sees his potential.

Kaede Kayano



Class E student. She's the one who named Koro Sensei. She sits at the desk next to Nagisa, and they seem to get along well.

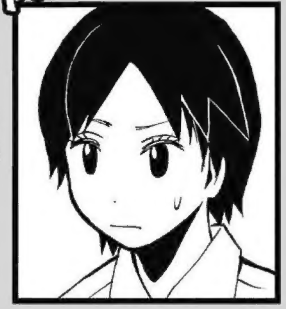
Karma Akabane



Class E student. A quick thinker skilled at surprise attacks who has succeeded in injuring Koro Sensei a few times. His failure in the final exam of the first semester has forced him to grow up and take things a bit more seriously.

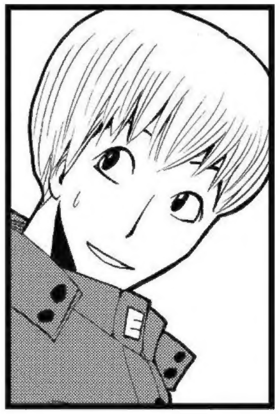
Hinata Okano

pick up!



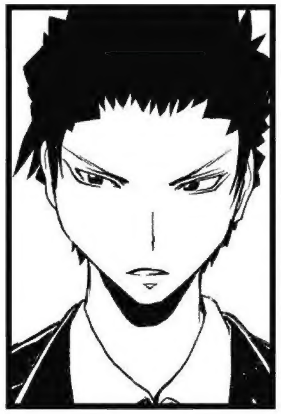
She's very flexible, has an acute sense of smell, very good night vision, and scratches when she's angry. Let's just call her...er..."wild-natured."

Koki Mimura



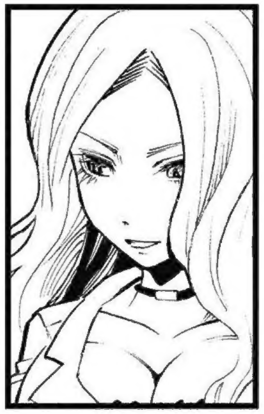
Class E student. A brilliant graphic designer and videographer who hopes to work in the TV industry someday. He already has clients, such as Okajima.

Tadaomi Karasuma



Member of the Ministry of Defense and the Class E students' P.E. teacher. Though serious about his duties, he is successfully building good relationships with his students.

Irina Jelavich



A sexy assassin hired as an English teacher. She's known for using her "womanly charms" to get close to a target. She often flirts with Karasuma, but hasn't made any progress yet.

The betrayer! Is this what makes Ms. Vitch a "Ms. Bitch"?!

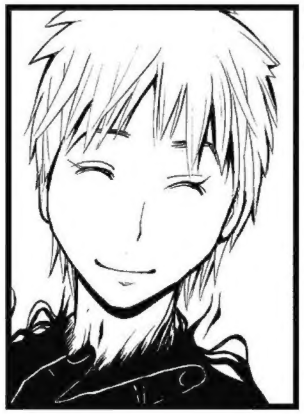
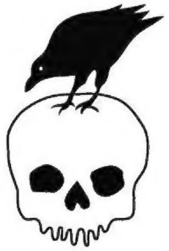
The Grim Reaper



The greatest assassin in the world. He attacked several skilled assassins to prepare himself to take on Koro Sensei, and now he has kidnapped Class E.

The Climax of the Grim Reaper Story Arc



Mr. Karasuma fights for the lives of his students and himself in a deadly battle against the Grim Reaper. Trapped in a cage, the students place bets on which of them will win. The odds are 6:4 on Mr. Karasuma...

AS FOR OUTSIDE THE CELL...
THERE'S A CAMERA IN A SPOT WE'D NEVER BE ABLE TO REACH TO DESTROY IT.
NEITHER OF THESE TWO CAMERAS HAS A BLIND SPOT...

RIGHT HERE...
IT'S NOWHERE NEAR THE OUTSIDE CAMERA...

AS FAR AS I CAN TELL, HE HASN'T ACCOUNTED FOR THOSE DISTORTIONS.

HEY, WHERE'D KORO SENSEI GO...?
KORO SENSEI CAN CAMOUFLAGE HIMSELF NATURALLY...

Science & Technology/Home Economics

Science & Technology/Home Economics ranking of Class E students as determined (solely) by Koro Sensei

Science & Technology	Home Economics
1 **Itona Horibe** His electronic engineering skills are top-notch. The rapid-fire Booby Trap Robot he invented shoots boobs.	1 **Sumire Hara** First place by a landslide in all aspects. The beanie she knitted for me using anti-me yarn was so comfortable I almost died!
2 **Taisei Yoshida** Large machinery is his specialty. I recorded Mach 1.5 on the iron tricycle he built.	2 **Takuya Muramatsu** His cooking skills are pretty much equivalent to Hara's. He'll become a fine househusband once he learns how to sew and do other forms of housework.
3 **Taiga Okajima** He has exceptional high-tech skills from fiddling with all kinds of delicate photography equipment with his agile fingers.	3 **Toka Yada** She's growing up and her home economic skills have improved greatly over the past year. She's going to be very popular someday...
4 **Rio Nakamura** She is very intelligent and able to disassemble a radio in a flash. It's a pity she considers reassembling it boring.	4 **Rinka Hayami** She has nimble, flexible fingertips. Seeing her casually patch and iron someone's clothes is amazing. She truly is the Hot-and-Cold Sniper.
5 **Hiroto Maehara** He has a taste for setting up and modifying guns, but ironically, Maehara actually excels at wielding a knife.	5 **Kirara Hazama** She has developed a growing interest in Home Economics since the end of the first semester. She's the spitting image of a witch if you see her stirring a stew with an evil smirk on her face.

I'm probably experiencing the busiest days of my life currently.

This manga is getting to the most important part of the story now. Also, I have been photographed, interviewed and have performed various other functions beyond my expertise to promote this manga.

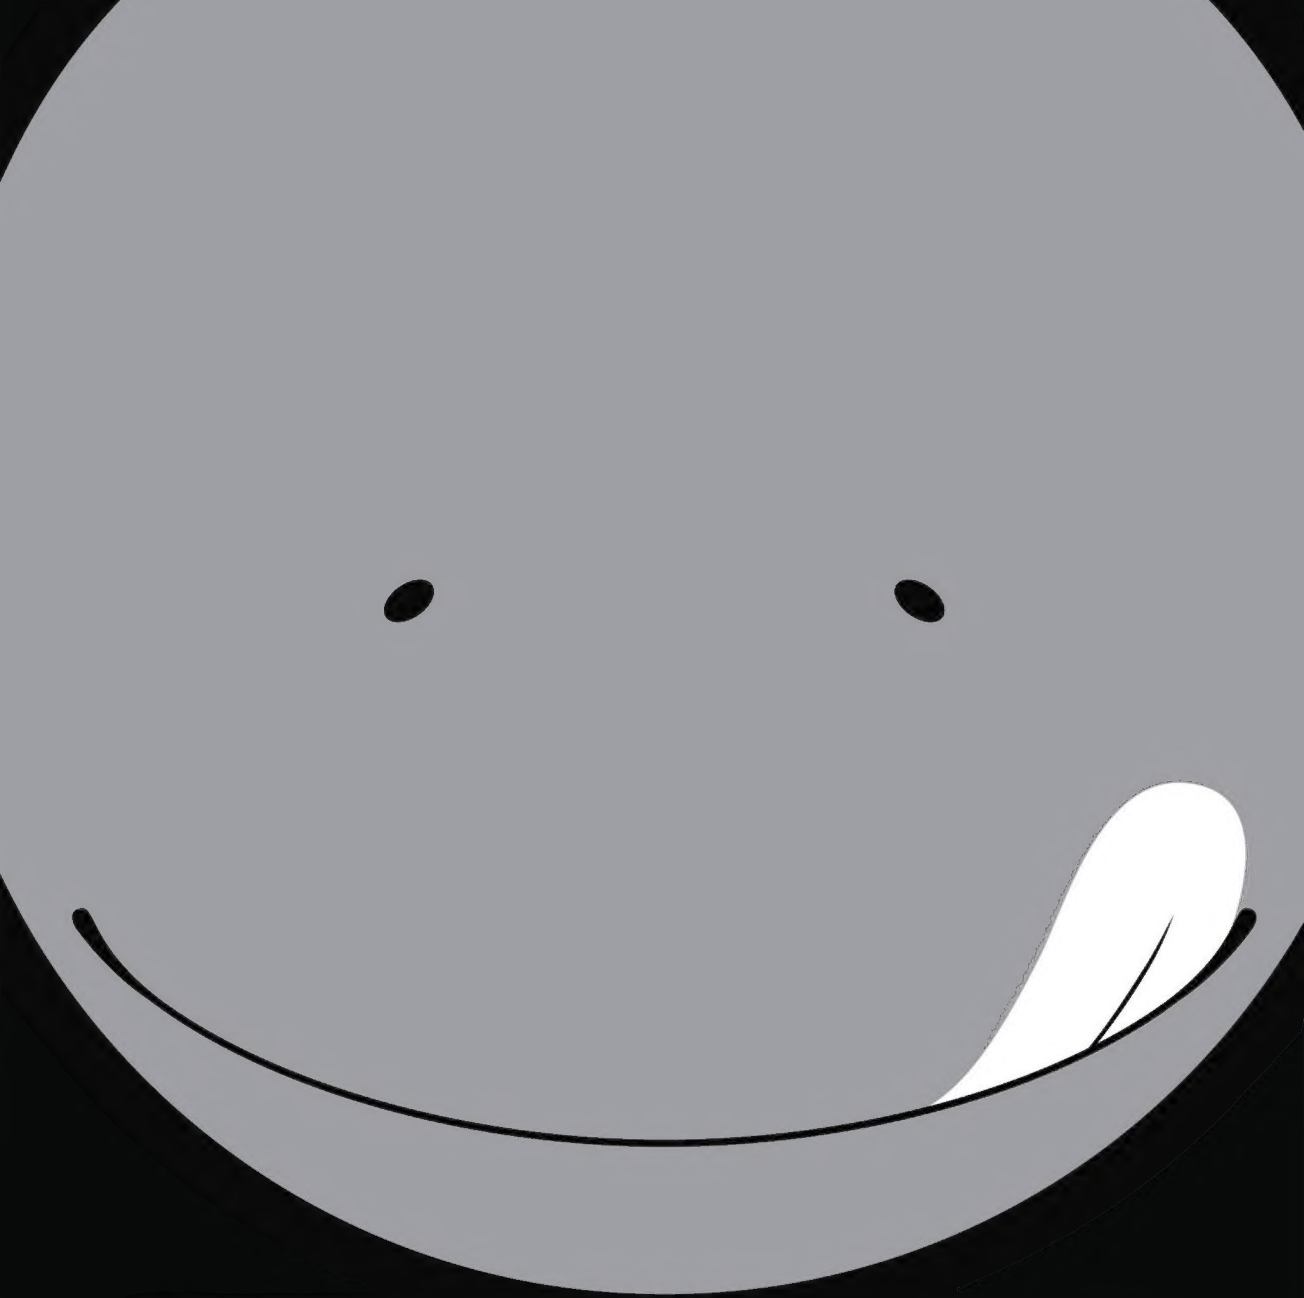
All of these incredible oppourtunities I have right now are the result of your generous support, so I'm putting everything I've got into the work before me.

And when it's all over...

I'll probably return to my days of moving at a slow, sloth-like pace.

–Yusei Matsui

Yusei Matsui was born on the last day of January in Saitama Prefecture, Japan. He has been drawing manga since elementary school. Some of his favorite manga series are *Bobobo-bo Bo-bobo*, *JoJo's Bizarre Adventure* and *Ultimate Muscle*. Matsui learned his trade working as an assistant to manga artist Yoshio Sawai, creator of *Bobobo-bo Bo-bobo*. In 2005, Matsui debuted his original manga *Neuro: Supernatural Detective* in *Weekly Shonen Jump*. In 2007, *Neuro* was adapted into an anime. In 2012, *Assassination Classroom* began serialization in *Weekly Shonen Jump*.



This new pink color appears on Koro Sensei's face when he has the munchies. Now that *Assassination Classroom* is being made into a movie, I've decided to call it "Convenience Store Pink" in hopes that convenience stores will create a collaborative promotional snack using this facial expression and color!
